MRS. BODIMER HONERED GUEST AT RECEPTION

Function held at Henry Wyman home by Ladies Aid Society-

RESIDENT HERE 50 YEARS

Tinley Park, Sept. 25.—Mrs. Bodimer, who has been a resident of Tinley Park the past fifty years, was the honored guest at a farewell reception held at the home of Mr. and Mrs. Henry Wymann under the auspices of the Ladies' Aid society of the local Methodist church, the afternoon and evening of September 18.

Mrs. Bodimer was overcome with joy to see in what high esteem she is held by her many friends here. The afternoon and evening was spent in a social way. A bounteous supper was served at 5 o'clock to the ladies. The men folks were not left out of the affair either. They dined at 6:30 o'clock.

Following a social hour Mrs. Bodimer was presented with a New Testament printed in the English and German languages, Mrs. Wymann making the presentation in behalf of the Ladies' Aid society, to show their love and appreciation of Mrs. Bodimer's Christian example while she was here. Rev. Mr. Ford of Joliet, pastor of the local Methodist church read a verse of Scripture and Rev. A. Ladwig, pastor of the German Methodist church offered a prayer. At the close [illegible] reception the guests sang "Blest be the Tie That Binds." Mrs. Bodimer more than appreciated the honor bestowed on her. She has been identified with the Methodist church for many years and has been very active therein.

Mrs. Bodimer leaves this week for Chicago where she will make her future home with her daughter, Mrs. Stammer.

The following were the guests present: Rev. Mr. Ford of Joliet, Rev. and Mrs. A. Ladwig, Dr. and Mrs. I. Ickstadt, Dr. and Mrs. C. Scheer of Tinley Park, Dr. and Mrs. A. B. Snider of Blue Island, formerly of Tinley Park, Mr. and Mrs. J. C. Andres, Mr. and Mrs. J. C. Funk, Mr. and Mrs. Henry Wymann, and son Norman, Mr. and Mrs. Christ Andres, Mr. and Mrs. James Fulton, the Misses Pearl and Grace Fulton, Mr. and Mrs. J. A. Rauhoff, sons Milard and Paul, Mrs. E. Hardinger, and son Norman, Mrs. Rogers, all of Tinley Park, Mrs. Stammer of Chicago.

At the close of the services Sunday afternoon at the Methodist church, Mrs. Bodimer was invited to come forward and the members of the congregation bid her farewell following which the congregation sang "God Be With You Till We Meet Again."

John Englehart has gone on a trip to Iowa. Christ Abbe and family have gone to Albert Lea, Minn., to visit with relatives, following which they are going to Iowa to visit relatives.

Farmers in this section are putting in all available time cutting corn and filling silos.

MOTOR TO DETROIT.

Mr. and Mrs. J. C. Andres, Mr. and Mrs. H. F. Bruggeman and Mrs. Wm. Funk left Friday for a motor trip to Detroit, Mich., where they are visiting with Mr. and Mrs. Ben Schwartz.

A truck load of Blue Island friends had intended to spend Sunday with Mr. and Mrs. Mark Hotchkins but found the roads so bad that they could not proceed. Mrs. Wm. Scheer invited them to stop at her home and a pleasant afternoon was enjoyed. Among those in the party were: Mrs. Engelland, daughters Katherine and Anna, Mrs. Katie Claussen and Mr. and Mrs. Art Engelland.

Mrs. Henry Hopman and Mrs. Carl Goebel visited with relatives in Hammond the past week.

Adam Keuch, who has been seriously ill at the St. Francis hospital, Blue Island, is somewhat improved.

Mrs. August Goebel underwent a serious triple operation at a Chicago hospital the past week. She is doing as well as can be expected.

TRACTION LINE SHARES BEING BOUGHT UP NOW

Frankfort men selling stock at 17 1-2 cents on dollar.

POLE FALLS ON AUTOMOBILE

Frankfort, Sept. 25.—Local people who hold stock in the Joliet and Eastern Traction Co., have been selling off their stock the past week. A. A. McCoy, representing the Joliet and Eastern Traction Co., has been buying up shares at 17½ cents on the dollar. He found quite a number of ready sellers. The local stockholders of the aboved named company have not realized a cent of interest or dividends on their investment for years. Much interest has been created here by the stock transfers and there is much speculation as to whether the shares will be worth more than what is being offered for them now. It is considered that the shares evidently are worth something or they would not be bought up.

It is understood that a large number of shareholders at Matteson have been unloading their shares.

Some of the Frankfort shareholders, however, are not quite so anxious to sell their shares at the price which is being offered.

POLE FALLS ON AUTO.

A Public Service Co. employee had a narrow escape from serious if not fatal injury Saturday morning when an electric light pole at the Walsh corner fell over onto his auto, crushing in the top and smashing the windshield. The man had been attending to some work on the street light and had just finished the job and was about to get into his car when he heard a crackling sound and glanced up just in time to see the pole falling toward him. He made a leap to safety. The pole was rotted off close to the ground, which caused it to fall.

(SEAL) Notary Public.

V. H. SCHEER SELLS HOME FOR $6100.00

W. C. Schmuhl of New Lenox Township is the purchaser.

Mokena, Sept. 25-- A noteworthy real estate deal took place Tuesday when V. H. Scheer sold his modern concrete residence and lot to Wm. C. Schmuhl of New Lenox township for $6100.00

LICENSES DUE OCTOBER 1.

All of the special licenses which have been passed by the village board during the past month will become effective on October 1. All the business men who come under the new licenses will have to make application to the village board for a license, which when granted will be issued by the village clerk upon the payment of the required license fee. All violations of the ordinances pertaining to the new licenses will be prosecuted by the village board.

CHURCH NOTES.

On October 12 a harvest festival and home-coming will be held at the St. John's German Evangelical church. A Sunday school rally will be held in the morning beginning at 9:30 o'clock. At 10:30 o'clock a special service will be held expressly for the old folks. Autos will be sent out to get those who are unable to walk to church. Any one wishing to attend or knowing of someone wishing to attend but who is unable to walk so far, kindly notify the pastor and a conveyance will be furnished. In the evening a special service will be held for the young folks at 7:30. Music will be furnished by the orchestra.

celebrated their annual mission festival Sunday with special services. Rev. R. Reichman of New Butler, Wis., conducted the English services at 10:30 a. m., while Rev. J. Schultz of Orland preached the German sermon at 2:30 p. m.

Carl Meder of Terre Haute, Ind., was the guest of his uncle, Robert Marks, the past week.

Cattle Sale

Geo. Barnes will have a cattle sale next Tuesday at his place of residence west of Mokena. For further particulars read his ad on the back page.

ATTEND JEWISH HOLIDAYS

D. Kolber and family are attending the Jewish holididays in Chicago this week. Mr. Kolber will keep his store closed Thursday and Friday and a week from Saturday.

FOR SALE—A laundry stove, base burner and range. A. Young, Mokena

FOR SALE—The Jackson place of 3-4 acre with improvements or north lots separte.

Mrs. August Pfleger, who has been in the Silver Cross hospital at Joliet for several weeks, was brought home the latter part of the week.

Mrs. T. J. McCarthy is going to sell her household goods at auction, Saturday, September 27. George McGovney will also hold an auction sale at his residence in Mokena next Monday, September 29. Both sales will be in the afternoon at one o'clock and will be in charge of Herbert Moriarty as auctioneer.

Mr. and Mrs. Henry Schiek motored to Chicago Sunday visiting with Mrs. Schiek's sister, Mrs. W. Howard.

Hugo Niethammer and sister, Miss Ruth, left Saturday for a several weeks' visit with relatives in Indiana and Missouri.

Miss Elfreida Kreis is clerking in the Niethammer store.

No services were held at the St. John's Evangelical church Sunday evening on account of the pastor being called to Green Garden. Next Sunday there will be no church services on account of the pastor and congregation being invited to participate in the mission festival at the St. Peter's Evangelical church in Frankfort.

NEW LENOX INVESTORS GET OFFER

Many functions on social calendar. Ladies prepar for Bazaar.

New Lenox, Sept. 25.—The past week New Lenox stockholders in the Joliet and Eastern Traction Co., were offered 15 cents on the dollar for their stock, but it is not known whether any shares were sold at this price or not. A number of the shareholders at Frankfort and at Matteson disposed of their holdings. The local stockholders have not realized any interest or dividends on their investment for many years. Some of the local stockholders feel that if the stock is being bought up for such a small amount they can afford to hold it a little longer. They fear a freeze out.

The Joliet and Eastern Traction line is about to make a change in their car schedules which is much displeasing to the New Lenox workmen employed in Joliet. According to the proposed schedule the car service will be changed from the hour and half service to two hour service. The car leaving at 6:10 from Joliet is to be changed to 7 o'clock which will make it very inconvenient for the local workmen to get home in the evening from their work. It is rumored that a petition will be forwarded to the Public Utilities commission, Springfield, asking that body to compel the Traction company to run the work car at the same hour as now, namely 6:10 p. m. The morning west bound service will also be greatly changed. Under the new schedule the car crews will have a 40 minutes lay over at the Chicago Heights and Joliet terminals.

The New Lenox Home Improvement club was entertained last Friday at the home of Mrs. Wm. O'Reilly. There was a good attendance. The program was on thrift, and the ladies gave practical examples of thrift practised by them in their own homes. Mrs. C. J. Jones read a paper and Mrs. H. N. Dickinson read a paper "On important current events which are making history."

The next meeting of this club will be held at the home of Mrs. Harlow Gougar on October 4.

Struck by Auto

New Lenox, Sept. 25--D. K. Hall of Minneapolis, Minn., in charge of a crew of men driving new Buick cars from the factogy at Flint, Michigan was struck and quite badly injured by an auto driven by a member of the Wednesday morning. The accident occured in front of the McDonald home and was witnessed by men working on the Weber building across the street.

The injured man had stopped his car, got out and went to the Weber place to ask the workmen the way to Joiiet. He was crossing the street to his car when a car driven by one his men came down the street a 25 mile rate and before either one of the men could make a move to avoid the accident the swiftly moving car hit him, hurling him some distance and before the car could be stopped the front wheels ran over his legs. The injured man was given first aid treatment by his crew and rushed to the Silver Cross hospital, Joliet.

Rev. J. L. Matlack leaves the 5th of October to attend the annual conference of the Methodist church to be held in St. James church, Chicago.

The oldest daughter of Mr. and Mrs. Robert Campbell entertained a company of friends at a birthday party Saturday afternoon. A good time was had.

TO ENTERTAIN SOCIETY.

The Ladies' Aid society of the Methodist church will be entertained at the home of Mrs. Peter Sinclair on October 1. The ladies are very busy just now preparing for the bazar to be given at the Methodist church parlors on Nov. 7.

TWO MATTESON WOMEN FIGURE IN ACCIDENT

Miss Mabel Bartling and Mrs. Adams in auto hit by I. C. Train.

NEWSY NEWS NOTES

Matteson, Sept. 25.—Miss Mabel Bartling and Mrs. Sylvia Adams, figured in a near fatal auto accident Wednesday night. Miss Bartling who was driving the car had stopped at Klein's crossing waiting for a train to pass. A freight on the siding however, obstructed the view and just as the auto was on the crossing another freight train was seen swiftly approaching in the opposite direction. The auto failed to quite clear the crossing, the hind wheels being struck by the pilot of the engine, hurling the car against a post. Mrs. Adams received a bad cut in her lip from the broken glass of the windshield and also suffered the loss of several teeth, besides being badly bruised and shaken up. Miss Bartling escaped injury but suffered a very bad scare, which has resulted in a nervous breakdown.

The crossing in question is a dangerous one and a number of other autoists have had very bad mishaps happen to them at this spot.

INSANE MAN CAUSES SCARE.

Early Saturday morning the residents of Matteson were surprised to see a giant of a man measuring six feet six inches, bare footed and wild eyed roaming the streets. Officer George Peterson was called and took the demented man in charge. The man seemed rational at times, then seemed to lose all track of his surroundings. He gave his name as Frank Smith and claims his home is in Ohio. He was a man of powerful build and weighed 204 pounds. He was taken to Chicago by Officer Peterson. It is presumed the man escaped from some insane asylum.

George Fortmiller has received another car of glutten meal.

John W. Muff drove to Chicago with his truck and brought back three nice heifers from the stock yards.

The Elliott's park is certainly changing its appearance. Mr. Charles Beach is doing great work. He is cutting all the underbrush and old dead trees and burning the rubbish. Go out and have a look. You will agree with the writer that it is a fine piece of work.

A COURSE IN HOME NURSING.

Miss Gootch, a Cook county nurse will be at Matteson Public school every Wednesday from 3:30 to 4:30 o'clock and instruct the older girls in home nursing. This course will also be open to any young ladies or married women of Matteson and vicinity. This is the same course which is given to the Red Cross women all over the United States. You are welcome. Do not pass up this opportunity.

PLAYGROUND APPARATUS.

The public school ground will now be equipped with playground apparatus. After it is up a more detailed report will be given.

INJURED WHILE CUTTING CORN.

Herbert Bruns of Richton met with a serious accident the past week while engaged in cutting corn. He cut his foot near the ankle. It bled so severely that he had to be rushed to the St. James hospital, Chicago Heights, as no doctor was available, all being busy on other calls. Herbert is doing nicely and is expected home soon.

A number of friends of Carl Andersen surprised him one evening last week in honor of his birthday anniversary. A good time was enjoyed by all.

Mr. Stade has erected a new barn west of town. The neighbors assisted in raising the structure.

FARMERS GREATLY PLEASED WITH RESULTS OBTAINED IN CO-OPERATIVE WOOL SELLING

Wool Buyers Inspecting Clip of Wool.

(Prepared by the United States Department of Agriculture.)

More uniform prices for wool and a more dependable market as a result of competitive bidding for the community clip have resulted in Marion county, Missouri, where the local wool crop has been sold in the bulk during the last two seasons. Last year 46 farmers pooled 10,393 pounds of wool, while this year 67 farmers have disposed of 16,015 pounds of wool. The price received for the last clip was 58¼ cents a pound for native first and 56 cents for western long. This price averaged at least 3 cents a pound higher than was bid by local buyers, so that pooling enabled the farmers to realize $480.46 more than by individual sales. The farmers are greatly pleased with results and indications are that many more will market their clips in neighborhood fashion.

How Pool Was Organized.

The county agent early in the year asked all the farmers who pooled their wool last season whether they desired to continue the marketing practice. Similar letters were sent to others who were known to have sheep but who had not previously pooled their wool. Subsequently the county agent sent letters to leading wool buyers of that section inviting them to make bids on the wool on or before the date indicated for its sale.

Another set of letters told the farmers where and when to deliver the wool and also that they could obtain sacks and twine from the county agent at a cost of 50 cents a sack and 22 cents a pound for twine. During the time of wool delivery the county agent, or some member of the wool-pooling committee, was constantly present at the storeroom. A shipping tag was tied near the open end of each sack, and on it was written the name and address of the owner as well as the number of sacks and fleeces which he delivered. Similar data were written at the top of a page in a small notebook kept by the county agent. The remainder of the page was left blank for the purpose of recording the different grades of wool, the number of pounds of each grade, and the price received. A typical page of this description is as follows:

No. 11—John Blank, Palmyra, star route; 5 sacks, 97 fleeces.

102 pounds Western, light, fine, at 56 cents	$57.12
281 pounds Western, light, short, at 46 cents	129.26
33 pounds clear native, first, at 58¼ cents	19.22
5 sacks, at 50 cents	2.50
Total	$208.10
Less 0.47 per cent expense	.98
Balance	$207.12

Committee Members Assist.

Four bids were received and on the day of sale three of the bidders were present and made a personal examination of the wool before handing in their bids. The entire committee and the county agent were present all day and after all bids had been received they were compared and the wool was sold to the highest bidder.

All of the following day was devoted to grading the wool and weighing the different grades that each farmer had delivered. Two members of the committee took the wool from sacks and assisted the purchaser in determining the grades, the third member of the committee did the weighing and the county agent recorded the weights and grades on the proper page of the notebook.

The next step in the transaction was to find the total number of pounds of wool of each grade and determine the total amount to be paid for all of it by the purchaser, who gave a check to the committee for the entire amount. This check was deposited in a local bank to be drawn upon in remitting to the farmers.

As the last step in the transaction, the county agent figured out what each member of the pool should receive for his wool and sent a check for the amount. The marketing expenses were prorated among the members.

MANURE PITS ARE FAVORED

Farmers Who Stand Back of Their Merits Should Pave Way for Many More of Them.

Plenty of arguments could be advanced in favor of the manure pit, but the fact that farmers who have them stand unqualifiedly back of their merits should be a big factor in paving the way for many more in the near future.

Freezing Improves Roots.

A portion of the parsnip and salsify roots may be left where grown until spring. Freezing is said to improve the quality of both vegetables.

Fowls Will Destroy Worms.

A flock of hens or a flock of growing chicks in the orchard will destroy bugs and worms which will furnish meat feed for the poultry and which, if allowed to live, would damage the fruit.

Cowpea Popular for Hay.

Where it has been tried the cowpea has become quite popular for hay.

STUMPS ARE VERY ANNOYING

Retard Plowing, Harrowing and Other Farm Work—Several Ways of Taking Them Out.

Stumps are very annoying in plowing, harrowing, harvesting and doing other farm work. It does not cost very much as a rule to get rid of stumps. There are several ways of taking them out, pulling them with stump pullers, using dynamite and burning are some of the ways.

FIND WATER TABLE OF SOIL

Should Be Three Feet Below Surface of Ground or Plants Will Be Shallow-Rooted.

If you want to find the water table of your soil dig a post hole three feet deep and the top of the water appearing in the hole will be your answer. The water table should be three feet below the surface of the ground or the plants will be shallow-rooted.

FOREST TREES SUPPLY WOOD

Waste of Time to Prune—Cut Out Poorer Trees for Fuel and Save Best Ones for Lumber.

You prune your fruit trees in order to get less wood and better fruit, but you only waste time by pruning forest trees because they only grow wood. Cut out the poorer trees for wood and leave the best ones for lumber.

KEEP CHICKENS' WATER COOL

Fowls and Chicks Will Drink More and Grow Faster—Clean Drink Fountain Every Day.

If the water dish or fountain is kept clean and cool the fowls and chicks will drink more and grow faster. It is a good rule to clean the drink fountain every day and scald it three times a week. Keep it in the shade.

Destroy Cabbage Worms.

Why let the green worms injure the late cabbage? Arsenate of lead in powdered or liquid form will destroy them.

Applying Nitrate of Soda.

Nitrate of soda, applied alone, is not always effective. If often needs the co-operation of phosphorous.

Right Tools for Garden.

Do you know whether you have the right tools to do your garden work quickly, easily and properly?

Income in Winter Months.

Some gardeners have a good income during the winter months from the sale of root crops as beets, parsnips, turnips, carrots and salsify.

Use for Orchard Grass.

Orchard grass has often been suggested as a substitute for timothy in both hay and pasture mixtures.

Value of Swarm of Bees.

The family that keeps a swarm of bees is not altogether in the grip of the sugar trust.

POULTRY

TO RAISE HEALTHY CHICKENS

Lack of Vigor in Newly Hatched Chicks Is Often Traceable to Weakness of Parents.

(Prepared by the United States Department of Agriculture.)

To be successful in raising chickens it is necessary to have healthy and vigorous breeding stock, for the lack of vigor in the newly hatched chicks is often traceable to weak parents. Only the most vigorous and the best grown birds should be put in the breeding yards. Each bird should be full of life and energy and free from any serious deformity. Yearling hens are usually better than pullets for breeders, for the reason that the hens are more mature and do not lay so many eggs during the early winter, and consequently do not reduce their vitality so much before the breeding season. Vigorous hens 2 to 4 years old can often be advantageously retained in the breeding yard. The male bird chosen should be young and active. An early hatched, well-developed cockerel is usually satisfactory, or a good vigorous yearling or 2-year-old cock may be chosen. The hens used for breeding purposes should be given the best care possible; they should be provided with large runs, and should not be forced for heavy egg production during the early winter.

Healthy and Vigorous Farm Flock.

DIPPING CHICKENS FOR LICE

Likely to Become More General Than Dipping Cattle Because Pest Is More Numerous.

(Prepared by the United States Department of Agriculture.)

"Dip that chick!" It isn't done just for the sake of making a rhyme for "dip that tick," either. Dipping chickens is likely to become more general than dipping cattle, because the chicken louse is a more widely distributed insect than the cattle tick. The "dip" consists of 1 ounce of sodium fluoride to the gallon of water, which should be at a temperature of 70 to 85 degrees. The dipping should be done on a clear, warm day—never on a cold day. The old way of getting rid of chicken lice was by dusting with dry sodium fluoride. It was effective, but in the case of large flocks it was slow and wasteful, a great deal of the dusting material being inevitably lost.

UP-TO-DATE SUMMER HOUSES

Colony Plan of Housing Poultry May Be Adopted to Advantage on a Great Number of Farms.

(Prepared by the United States Department of Agriculture.)

The curtain-front or partial open-front house is conceded to be the best type for most sections. The colony plan of housing poultry may be adopted to advantage on many farms. This system does away with the danger of tainted soil.

The roosts should be built on the same level, 3 feet from the floor, with a dropping board about 6 inches below them. Good roosts may be made of 2 by 2 inch material with the upper edges rounded.

The nests may be placed on the side walls or under the dropping boards. It is best to have them darkened, as the hens prefer a secluded place in which to lay.

POULTRY NOTES

Let the hens help themselves to a dry mash.

* * *

Small or dirty eggs should be used at home.

* * *

Gather eggs daily; market at least twice a week.

* * *

Ship or deliver eggs at least twice or three times weekly.

The Nationally Accepted Wall Tint

No Package Genuine Without Cross and Circle Printed in Red

To Get Alabastine Results You Must Ask for Alabastine by Name

We Hand You the Package That Puts Health and Cheerfulness in Your Home

Smoked, grimy, papered, painted or kalsomined walls are a menace to health and offensive to the discriminating housewife.

Alabastine is so economical, so durable, so sanitary, so easy to mix and apply that it is universally used in securing proper wall conditions.

Alabastine is used in the homes, schools, churches and on all kinds of interior surfaces, whether plaster, wallboard, over painted walls, or even over old wallpaper that is solid on the wall and not printed in aniline colors.

Alabastine is packed in dry powder in full five pound packages, requiring only pure cold water to mix, with directions on each package. You will readily appreciate the economy of Alabastine over other methods, and remember it is used in the finest homes and public buildings everywhere. Be sure you get Alabastine, and if your dealer cannot or will not supply you, write direct for sample card and color designs with name of nearest dealer.

MIX IN ONE MINUTE WITH COLD WATER

THE ONLY TOOL NEEDED TO APPLY

New walls *demand* Alabastine, old walls *appreciate* Alabastine.

Alabastine Company
1646 Grandville Ave. Grand Rapids, Mich.

WIDE DIFFERENCE IN LIVES

Something of a Moral in the Careers of John Burroughs and the Late Jay Gould.

More than seventy years ago two boys attended the village school of Roxbury, among the Catskills, together. They sat in adjoining seats. One wrote a composition for the other, and charged him 70 cents for the performance. The man who collected the cash for his writing was Jay Gould, who died at the age of fifty-six and left an estate valued at $70,000,000. The man who paid cash for the composition was John Burroughs, the famous naturalist and writer, who recently celebrated his eighty-second anniversary at his beautiful vine-clad cottage on the Hudson.

Burroughs hasn't been bending all his efforts to getting money, although he has acquired a competence of this world's goods. He says he has taken real joy out of life. Nature appeals to him in a marvelous way, and he has passed his feelings on to the world in his many books.

"I'm just as spry as I ever was and haven't an ache or pain," he says. "It is all because I live the simple life."

Dry-Cleaning, as It Were.

"Like my new bathing suit?"

"Yes."

"It's waterproof.'

"That so? Is that an advantage?"

"Yes. I can go in bathing now and not get wet."

By stopping to think a woman occasionally gives her tongue a rest.

His Diamond a Bargain.

An amusing story is told in connection with the early days of Sir J. B. Robinson, the South African millionaire, who has been figuring prominently in the London law courts.

He was crossing the Vaal river in 1869, looking for diamonds. He asked the natives if they had seen any "pretty stones," and at last he found a man who had a diamond. It was a small stone, and the prospector offered $50 for it, but he refused to part with it. He increased his offer to $60, but still the man refused.

"What will you take for it?" he was asked.

"Twenty goats," was the firm reply; "nothing less."

"I sent off to the nearest farm," says Sir J. B. Robinson, in telling the story, "and bought 20 goats for $37.50, and so got possession of my first diamond."—Philadelphia Public Ledger.

Joke of the Evening.

The most embarrassing moment of my life occurred at the alumnae banquet when I graduated from college.

We were served with some bouillon in teacups, and I, supposing it was tea, added some sugar and cream.

Needless to say, I was the joke of the evening.—Exchange.

Most Do.

She—He treats every one with the milk of human kindness.

He—Yes, but he usually skims it first.

The man with anticollapsible views must indulge in vestibule trains of thought.

Give The Folks

The Original

POSTUM CEREAL

for their table drink. That will dispose of those coffee troubles which frequently show in headache, irritability, indigestion and sleeplessness.

MOKENA

Miss Selma Keinnitz of Chicago spent the week end with Rev. W. J Keinnitz.

Mrs. W. J. Keinuitz left Tuesday for Edwardsville, Ill., to spend a few weeks with her folks and visit friends in St. Louis.

"The Deplorable Conditions of Our Day and the Church's Opportunity and Duty" will be the sermon topic at the Lutheran church next Sunday morning.

The Lutheran Ladies' Aid meets next Sunday at 2:30 p. m.

Tuesday, Sept. 23rd, Rev. W. J Keinnitz ottended conference at Matteson. Some thirty ministers were the guests of Rev. Becker on this day.

R, N. A. meeting Oct. 7th at 2. p. m. at Pfleger hall.

MARLEY

Marley, Sept. 25.—This coming Saturday afternoon the children of the Marley Baptist church will meet at the church to rehearse for the Rally day exercises to be held next month.

Mrs. Lucy Laun of Lake Zurich Ill., was the guest of Mr. and Mrs Edward Warner the past week.

Mrs. Ida Brown of Manhattan spent the week end with her brother J. R Bowen.

Mr. and Mrs. Ward Bush entertained Kingsley Burnell and Miss Elizabeth Barker of Evanston.

Mrs. K. A. Weydell of Chicago was the guest of Mr. and Mrs. Walter Zimmerman the past week.

Mr. and Mrs. Frank Kercheval of Clarion, Ia., are visiting at the home of the former's brother, A. R. Kerche-o ftlie former's brother, A. R. Kercheval.

Mrs. Elizabeth Marie Smith of Lincoln, Neb., is visiting at the Bowen and Rust homes.

Miss Marion V. Barney has taken up the duties of the new guardian of the Adi Camp Fire girls of Marley, succeding Mrs. Ward Bush who on account of the multitudious home duties has been obliged to relinquish the guardianship. Mrs. Bush did very successful work and the girls are sorry to lose her. Miss Barney is well liked by the girls and they feel she will make a very good and successful successor.

The Way To Do.

Aint some people funny tho?
Allus hunting trubble,
Allus braggin' 'bout their woe,
Makin' it out double;
Just onj'yen' misery
All the time a-frettin';
Turnin' one care into three,
Every good forgettin'.

Desprit times is comin' soon,
Lots o' pain an' sorrer.
Ef it's fine this afternoon,
Sure to storm to-morrer,
Ef a feller's struck a plum,
Like that thar Jack Horner,
Then they're certaiu sure they's some
Hard luck 'round the corner.

Land, I wouldn't be that way
Fer a monarch's ransom.
Why not whistle somethin' gay
Steppin' wide an' handsome
Es ye trevel down the road
Feelin' pert and clever;
Wishin' no one else's load
Didn't gald'em never.

Then, if trouble comes, w'y then,
'Taint no worse to be'r it;
An' ye know that you ain't be'n
Telephonin' fer it!

Mokena, Ill.

Message from The Mission

This interesting communication from Peter McCarthy, superintendent of the Morning Star mission, Joliet, has been received by the editor of the News Bulletin:

"Everything that Jesus said is true. When he said, 'The Kingdom of God is within you,' and 'Repent you, for the Kingdom of God is at hand,' and when he said to the impotent man 'Take up thy bed and walk,' and when he commanded the man with the withered hand to stretch it forth, he meant it. Obedience brings results.

"And in the fourteenth chapter of St. Luke when he made a supper and told those that was invited that all was ready, he meant it. They began to make excuses, and he sent his servant out into the highways and byways to compel them to come in, that his house might be filled. And he commands the same thing of his servants today.

"Jesus preached his last sermon in the summertime, and I find that the highways and byways are filled with hungry, sin-sick souls looking for relief, and the world cannot give it. No one can but Jesus.

"So we want to obey our Savior who said, 'I am the bread of life.' So we mix a little bread in our sermons We believe in the blood and bread.

"The disciples wanted to send the hungry multitude away, but Jesus said, 'No,' took the fishes and loaves and blessed them and fed the hungry multitude.

"Poverty and misery produce crime. and I find it is easy to reach the soul through the stomach. It matters not what a man loses if he saves his soul, but if he loses his soul it matters not what he saves, so we reach hundreds through the fourteenth chapter of St Luke, and if you have empty seats try a little bread in your sermons. It fills our mission to overflowing.

"A wise man just before he died said: 'All that I spent I saved. All that I gave away I take with me, and all that I saved I lost.' So let us not be weary and well-doing for we shall reap if we faint not."

Mokena

Mokena, Sept. 25.—The members of the Brotherhood of St. John's German Evangelical church are planning to attend a big brotherhood gathering to be held at Monee on October 6. The local society will attend in a body, the trip to be made in autos. Special services will be held at the Evangelical church in Monee of which Rev. Mr. Gabe is pastor. A rousing meeting is anticipated. The Mokena Brotherhood will join the Monee District Federation of Brotherhoods at this meeting. A representative from each brotherhood in the district will be asked to give a report of the work which has been accomplished by his respective society and the work which is being outlined for the ensuing year.

Confirmation instruction school has opened and Rev. William Kreis will give instructions on Tuesday and Thursday afternoons and Saturday mornings.

The Ladies' Aid of the St. John's Evangelical church will give a supper and bazaar Thursday afternoon and evening, November 6, in Mokena hall. The program committee is busy getting up a fine program with a grand concert given by the Mokena band, and a dramatic entertainment in which the leading talent from the various leagues will participate.

A membership increase campaign has been begun by the Y. P. S. of St. John's with Roy Krapp and Arthur Kreis in charge of the opposing teams. There will be a Red and a Blue side. As a recognition of the faithful work done during the campaign, the losing side will be the host of a party or a banquet to be given Halloween eve, October 31, at the Mokena hall. Everybody is enthusiastic for the contest and it is predicted that this will be the finest season in the Y. P. S. work that has ever been had.

The Immanuel Lutheran church

New Lenox

New Lenox township had a very beautiful float in the county home coming celebration held at Dellwood Park, Joliet, last Wednesday, Miss Laura Jones having charge of decorating the float. A large number of New Lenox people attended the celebration. All of the New Lenox soldier boys attended in their uniforms.

HOLD THANK OFFERING.

The annual thank offering service was held at the Methodist church Sunday morning. Despite the rain there was a good attendance. Miss Schneider of Marcey Center, Chicago, gave a graphic account of the settlement work which is being done there. Miss Eunice Owen and Harlow Francis sang solos. The collection totaled $27.39.

MATTESON

Rudolph Adams has purchased a new piano for his daughters. The piano was brought to Matteson Friday.

William Vollmer shipped two loads of hay to Chicago Friday.

The Misses Vera Boyer and Erna Krabbe have taken up positions in the ten cent store in Chicago Heights.

Henry Krumweider who has been visiting at the Fred Lustfeldt home has returned to Buckley.

Sam Lauer and George Uttermark are filling silos.

The annual Missions Festival was celebrated at the Lutheran church last Sunday with special services.

The Misses Isabel Robinson, Myrtle Templin, Hazel Witzel and Kathryn Lennon gave a lawn party on Robinson's lawn Saturday evening. There were 12 guests present. Games were played and refreshments served. It was reported that all had a jolly good time.

Samuel Lauer, Sr., also was quite badly injured while cutting corn. He was cut on the knee. He was laid up for several days.

Hears Only the Voice.

"A lack of understandin' kin be mighty comfortin'," said Uncle Eben. "De worse you talk to a mule de more he feels complimented by de attention he's receivin'."

Tempers and Tight Collars.

Dr. Leonard Williams, lecturing on "Common Sense," at a nursing conference and exhibition in London, said that people with tight collars did not drain their brains properly, and often suffered from bad tempers. He had noticed that since women had given up high collars and were wearing garments which gave complete freedom to the neck they had become sweeter tempered.

STYLES SHOW LITTLE CHANGE

Fall Coats and Wraps Very Like Those Worn During the Summer Months.

DOLMAN SHAPE IS RETAINED

Predictions That It Would Lose Its Popularity Have Been Proved Unfounded—Capes of English Tweed for Those Who Motor.

If one has been denied a fur coat for many years and has secretly cherished a longing thereafter, this is the year, doubtless, when this longing can be gratified, for so expensive are the lovely cloth things that if possession is based on the matter of cost then a decision in favor of the fur can be made, as there will be no very great difference in the price, remarks a fashion writer in the New York Sun. Of course I am referring to the elaborate and dressy models which all women admire and not everyone can possess.

Of course the sumptuous things of ermine, mink, sable and seal are regal and lovely in capelike and dolman effects which swathe the wearer from tip to toe in a luxury indescribable. Just as in the fall dresses there is nothing radically differing from styles of recent months, so in coats and wraps there is no departure from accepted models.

In Army Style.

A favored style is seen in the fine warm coats of camel's hair following the design of an officer's trench coat belted and close fitted for warmth and comfort. These lovely camel's-hair coats are often mounted with deep fur collars of softest texture, such as brown fox or lynx. The huge patch pockets and deep fur cuffs which were so in evidence a season ago are no longer featured so emphatically, either on this sort of coat or on one of the velvetlike duvetyns or wool velours.

The dolman shape persists in spite of the persistent rumors to the contrary, and many of the most exclusive houses are showing the dolman, not only in the less expensive materials, but in the splendid furs and brocades and velvets as well. Much embroidery in self colors done in heavy silken threads is observed—perhaps for the reason that the great cost of fur will place it beyond the average pocketbook. A curious notion is seen in the use of monkey fur placed fringelike along the bottom of short jackets, and used also to trim fur toques.

Monkey Fur Not Popular.

The use of monkey fur on an evening wrap of heaviest black satin is not unpleasing, as it has been cleverly done, but monkey fur will not be greatly admired, however smart it may be considered. On the particular wrap which it embellishes the back has been caught up in a sort of overdrapery suggesting the drooping blouse the French makers exploit continuously. The fur is used as a banding underneath this drapery and extends around to the front and down the sides of the coat. The very long hair has all the effect of fringe and is soft and silky. The sleeves in this wrap are really mere slits in the front sides, and they too are edged with the monkey fur and form the collar, which is so made that it buttons up around the ears or falls away in a little cape effect. The lining of this handsome wrap is of white satin pailletted with huge black velvet dots. This fashion of doubling material adds as much to the cost as it does to the beauty of a garment and the fall cloak is apt to be as radiant inside—perhaps even more so than the outside.

Less pretentious than this silken wrap and very lovely is a handsome straight-hanging coat of tan camel's hair with perfectly unbroken lines down the back except for a tight plain yoke across the shoulders. At the sides a pointed pocket effect is introduced in brown seal, and the high rolling collar which rumples around the throat is also made of the rich brown seal. The sleeves are long and tight and finished at the wrist with a narrow cuff of the brown seal. This is an excellent example of a conservative and beautiful coat suitable for every daytime occasion.

Velvet Wraps for Evening.

So many women have invested in handsome fur pieces for wear with the one-piece dress that the demand for the untrimmed coat is met by the manufacturers in velvet wraps for evening wear which have no fur whatever about them. These are for the most part made up in rather simple designs with long, loose lines, plain, rather tight sleeves, and resembling elongated jackets. They are very graceful, and with the addition of one's own furs are quite as sumptuous as the average woman need demand.

For motoring some very smart capes of fine English tweed are made with lamb's wool linings, which unbutton and can be quickly removed. These traveling capes are a delight for steamer and motorcar, and are copied from trench coats much used by officers during the war. The tweed is so treated that it is impervious to rain. It is found that the heather mixtures and intermingled colored surfaces are much better for a wrap for general use than the solid colors, and for this reason smart coats in twilled cords and invisible stripes and mixtures are much in demand for bad weather wraps and general service.

Of course many women find it practical to use the coat suit through the winter season, and for this reason have the coat heavily interlined with lamb's wool or flannel. Years ago we often saw the lining of jackets of this sort made of white and gray rabbit skin, also much used for the long and all-enveloping evening capes, but rabbit skin is costly these days, and one rarely finds it so employed except for motor and ocean travel.

It is quite possible to insert an interlining of one of the fleecy warm woolen fabrics without adding clumsiness to the coat. No combination is lovelier than one of the soft blue heather mixtures with a soft gray fur. One such coat suit has the plain skirt which is demanded on all the newest models and a rather short jacket in a box coat effect, except that it is not distinctly a box coat, for a belt placed across the back prevents this.

Skirts are only slightly shorter, but distinctly wider, 36 inches, and even more, being the accepted measurement around the bottom. Because the skirt is short the majority of coats will reach only to the hip. A clever model has a panel down the back, broken to hang over the waistline and extending in a position effect slightly longer than the sides of the jacket. The material used is tobacco brown duvetyn, very soft and rich looking, and the fur collar and tabs placed on the back panel are of brown seal.

Ostrich Trimmings.

One of the newest touches to the evening gown is ostrich trimming, which is used in fringe and in clusters of tips closely curled. At a point in the drapery of the skirt, where the folds are focused at one point, a bunch of these feathers in three shades was used as an unusual decorative touch for one gown.

WAISTCOATS OF ALL SORTS

Popular Chiefly Because They May Be Made As Expensive and Distinctive As Desired.

Waistcoats have gained an even greater vogue than was predicted for them in the early spring. The reason that they persist in really good style in spite of the fact that they are found in most of the cheap ready-made suits is because they can be made as expensive and distinctive as their wearer wishes. Some of the smartest are made in the newest weave of silk jersey, which is very heavy. This is embroidered at the neck and across the lower edge with colored silks or wools in a conventional design. Embroidered silk is sold by the yard for waistcoats. It is embroidered by hand and it costs from $8 a yard up. It may be had in a narrower width for a slightly smaller sum, but as two strips of the narrower width are needed for the waistcoat the expense is even greater. The woman who is nimble fingered can reproduce this sort of embroidery herself. It is worked on heavy silk, in an all-over pattern, with colored silk threads and with the occasional introduction of gold or silver threads to point the design.

Dress Suggestions.

No end of pockets appear on sports clothes.

"Caught fringe" appears as trimming on many mantles.

The very short sleeve has made the long glove necessary.

Soft pongee makes delightful wool embroidered blouses.

To Wash Pink Goods.

When washing pink cotton goods the color may be made fast by using "red" instead of bluing. Boil a piece of Turkey red in a pint of water. Bottle this and use it like liquid blue, experimenting with a little at a time until the right tint is secured.

DADDY'S EVENING FAIRY TALE

LITTLE BLACKSNAKE.

"I was a little blacksnake," said the blacksnake, "as anyone who knows anything about blacksnakes will tell you. But the whole trouble is that many people don't know much about snakes, and then there are a great many who don't care to know about us."

The blacksnake wriggled and wriggled, and finally he saw a little creature in a brown cap and brown suit.

"Who are you?" asked the blacksnake.

"I'm Billie Brownie," said the little creature.

"And I'm Bennie Brownie, his brother," said another little creature who came up at just that moment. They both looked exactly alike.

"We thought we heard you talking," said Billie Brownie.

"Yes, we felt quite sure you were," said Bennie Brownie.

"I was," said the blacksnake.

"Then we were right," grinned Billie Brownie.

"We were," said Bennie Brownie, as he hugged his brother.

"What funny creatures you are," said the blacksnake. "Are you fairies?"

"We're of the same great family," said Billie.

"Just as I am of the family of blacksnakes?"

"No," said Bennie, "we're of the great big family of fairies as you're of the great big family of snakes and reptiles, and we're of the family of brownies as you are of the family of blacksnakes."

"Oh," said the blacksnake, "I understand."

"What were you talking about?" asked Billie Brownie.

"Yes, what were you saying when we heard you speaking to yourself, or hissing to yourself, or whatever you call your language?" asked Bennie Brownie.

"Hissing will do nicely," said the blacksnake, wriggling around.

"Then tell us your story," said Billie Brownie.

"Perhaps it wasn't a story," said Bennie Brownie. "Perhaps you were making a speech."

"In any case," said Billie, "do go on where you left off."

"Just what I was going to do," said the blacksnake. "I am not going to keep this skin forever."

"We didn't say anything about skins, but we spoke about talking," said Billie Brownie.

"Oh, I beg your pardon; I thought you were speaking of skins," hissed the snake politely.

"Oh," said Bennie to his brother, "he was probably talking of skins when we came around. Let's ask him to continue."

"Pray continue," said Billie Brownie, "and tell us just what you were saying, and all about the skins, too."

The snake wriggled around once more and then began to hiss this story:

"I was left by my mamma with a number of other little egg brothers and sisters under a stone. My mamma had other business to attend to, so she left us to be hatched out by old Mr. Sun. My mamma hasn't any fondness for her children, she is a sensible snake mamma.

"When I was ready to come out from the egg I had my egg tooth all grown, or, in other words, I had grown a sharp little edge in the direction of my nose. With this I was able to leave the egg.

"Then I crawled around and looked at the world. I wasn't a little cry baby. I got along all right by myself. I didn't need anyone to tell me what to do. I picked it all up of my own accord.

"Then, after I had been out a few days I shed my first skin and left my egg tooth with it, for no longer had I any use for the egg tooth. I was free then—a free snake—and so am I now—out of the egg which held me until I was big enough to look after myself.

"But when you heard me talking I was saying what a pity it is so few people care to know about blacksnakes, or any snakes, for that matter."

"We like to hear about them," said the brownie brothers, "and we thank you for telling us your story!"

Good Pledge for Everyone.

When a boy joins the boy scouts he has to make three promises; and any boy, whether a scout or not, would be the better for making similar promises and keeping them.

They are as follows:

On my honor I will do my best:

1. To do my duty to God and my country and to obey the scout law.
2. To help other people at all times.
3. To keep myself physically strong, mentally awake and morally straight.

WILD ANIMALS VISIT BANFF

Deer and Bears So Tame That They Are Everyday Sights in Canadian Village.

Although Banff is a hustling village during the summer, and is thronged with tourists, wild deer from the mountains are to be seen daily on the streets, and at night stately elk leap from the roads into the bushes to escape approaching automobiles. If a Banff cottager expects to eat his own "garden truck," he builds a deer-proof fence around his patch. The grounds of Brett hospital are open from the street, and the other night half a dozen deer made a raid upon the flower garden. Banff is the capital of Rocky Mountain park, and shooting game within the park limits is forbidden by law. The deer, being unmolested, have become very tame. and even a bear now and then pays a friendly visit to the village. Not long ago a bicylist, speeding down one of the side streets at night, hit a dark object, and turned a somersault or two before he hit the macadam. Sitting up, he looked around and discovered a bear hitting the trail for home as fast as four legs could carry him. Although tame and somewhat obtrusive, the deer, elk and bear do not relish too close an acquaintance with man, and have proved themselves to be not only picturesque but perfectly safe neighbors.—Canadian News Letter.

The Evidence.

Fair Overseas Visitor—And, my dear, they're just the cleanest boys you ever saw. It must have been the day they sent their things to the laundry, for the major took us all over the barracks, and there wasn't a sheet or pillow slip in sight anywhere! And not even a speck of linen in the mess hall!—The Stars and Stripes.

When a man begins to learn that he's ignorant he's on the way to wisdom.

An optimist is one who sings, "Pack your troubles in the old kit bag and smile, smile, smile."

BETTER FITTED FOR WORK

Testimony Shows That Service in the Army Has Made the Average Man More Efficient.

Evidence that returned soldiers, particularly those who saw service overseas, are going back into civil pursuits more efficient and better fitted for their work is furnished by one of the largest employers of labor in the country, a firm which has requested that its name be not disclosed.

Of more than six hundred returned soldiers who have been employed by this corporation 43 per cent have proved more efficient than they were before their military experience; 58 per cent are put down as just about the same as before in efficiency and the remaining 5 per cent are rated as having less efficiency.

According to the letter giving these figures: "The analysis indicates that the men are more orderly in their routine work, more punctual, and a few who were rather difficult to handle are now amenable to discipline."

Needed Polishing.

She had been married just five years and was rather discontented because her husband was not so attentive as he had been in the early days of their marriage. To her mother and high school brother she was telling her troubles. "He neglects me all the time," she complained. "I'm just an old shoe—that's all."

The mother sympathized with her, but the brother openly voiced his opinion in: "Well, don't you know, sis, that a great many old shoes are often made more valuable to their owners by a little polishing?" He looked meaningly at her frowsy appearance. "They are prouder of them, too, then."—Indianapolis Star.

Reached Limit of Endurance.

Bobby's usual early morning chatter was suppressed to permit father to sleep. Unable to keep the silence longer, he burst out: "My mouth's tired—I gotta talk now."

Some remarks would be more remarkable if left unsaid.

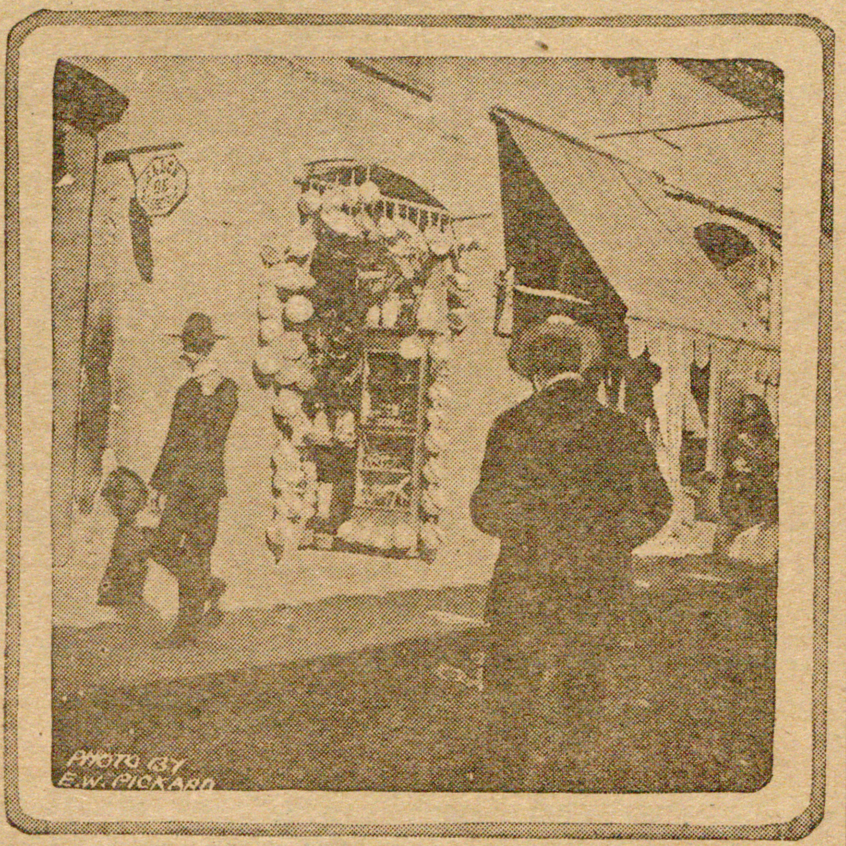
"TURCOS" of VENEZUELA



"Turco" Shop in Caracas.

FEW PEOPLE associate the idea of Arabs, Moors or Turks with the picturesque cities of the Spanish main, yet there is a flourishing colony of these orientals in Venezuela, hailing from northern Africa and Asia Minor. They maintain among their foreign surroundings all the customs of their brethren in the Old World except that of plural marriage, on which institution the Venezuelan government has put its foot. "It is a strange thing to walk along one of the main business streets, say, of Caracas, essentially Spanish in every respect," says a writer in the New York Times, as quoted in the Literary Digest, "and suddenly see alongside Spanish names of merchants strange Oriental inscriptions, such as Abu Amad, Ben Sid, Chalala, Benatar. One might easily imagine one's self in the bazaars of Tangier or Damascus." They are an interesting lot, these "Turcos," as the Venezuelans call them, irrespective of whether they came from Turkish territory or not. They will not work under a "boss," and so all of them are in business for themselves, mostly as peddlers or small shopkeepers; and all of them make money hand over fist. Not only do they take in the coin, but they also save it, and it is no uncommon thing for an humble peddler to come into a bank, plank down $20,000 in gold and ask for a receipt and a check book. They don't like banks and therefore keep their money at home until the amount becomes so large that they fear for its safety. And they will, under no circumstances, "mix" with the native population.

Live Their Lives Apart.

These Arabs and Moors and Turks live a life entirely apart from the Venezuelan community. Whereas, if a Venezuelan has half a million dollars, he is known all over the country and pointed out as one of the leading men in the community, a "Turco" in Caracas, the Venezuelan capital, may have that amount, or nearly as much, and live so entirely to himself that scarcely anybody in the city can even tell you where he dwells. There are "Turcos" with big accounts in the leading banks of Caracas who are still living in the wretched hovels they occupied when they first reached Venezuela, with ten or fifteen of their race packed into the same house, several in a room. And when they return to northern Africa or Asia Minor they often go back as they came, in the steerage, crowded in with hundreds of other passengers, though the purser of the steamer may have locked up for safekeeping thousands of their dollars which they have earned by years of hard work in Venezuela.

The "Turcos" never accept a job. They want to be their own bosses first, last and all the time. They began by going to some old-established firm in Venezuela, asking a credit of $5 to $10, and taking out a basket of trinkets and dry goods to sell from house to house in the capital or some of the lesser cities and towns. They start out shortly after dawn and work until dark. Their cry of "Compre, merchante" ("Buy, customer"), in a strange, Oriental singsong, is well known all over Venezuela.

Prosper and Grow Rich.

Gradually, as they prosper—and they almost invariably do—they get more credit from the big firms and eventually open a little shop, a mere "hole-in-the-wall," where there is scarcely room for a person to turn around. They put in a stock of dry goods, trinkets, novelties and the like, or perhaps the lighter kind of hardware. Then they get rich. Their money multiplies in ways that strike the Venezuelans, who are inclined to take life easy, as miraculous.

The quitting whistle means nothing to a "Turco." He will start a little rat-hole of a shop near the market place in Caracas, for instance, and open up at dawn in order to catch the sellers of vegetables and fruits, who come into the market from the villages round about, and the sellers of fish who cross the mountains from the seacoast in the small hours and reach Caracas at sunrise. He will remain open long after the shops of the Venezuelans are closed and their proprietors thinking of theaters and dinner parties.

As a general rule, when a "Turco" has accumulated a sufficient amount of money, he will close up shop, pack up his belongings and return to his native land, where the means acquired in the western world enable him to live in "grand style," according to the standards prevailing in the home town. Once in a while, however, one of the little shopkeepers will decide to remain in South America and "branch out." As a result some of the most important shops in Venezuela are owned by "Turcos." Further:

The "Turcos" who run these big shops naturally need employees to help them, but the employees are never "Turcos," for, as I said, these people insist on being their own bosses. So the strange anomaly is presented of these keen competitors of the Venezuelan merchants being served by Venezuelan employees. Customers entering several of the principal dry goods shops of Caracas will find behind the counter a young Venezuelan clerk, who will obligingly hand down goods from the shelves, while, tucked away in a dark cubby-hole, barely visible from the front of the shop, is a swarthy "Turco" proprietor bent over his ledger, trying to figure out how soon he can return to Mount Lebanon and cut a swath among home-folk.

Observe Mohammedan Forms.

"Turcos" are born traders and shun other forms of business. Their idea of a line of endeavor worth-while is one where they have to take no chances; hence they never speculate, not even so much as to extend credit to their customers, practically all their transactions being conducted on a cash basis.

When they close their shops they hurry to the quarters where they live—in Caracas they are packed together in one of the worst sections of the city—and take up a mode of living which is not a bit different from that of their kin along the eastern shore of the Mediterranean. At sunset the Mohammedans among them prostrate themselves toward Mecca and recite the prayers enjoined upon them by the prophet. Old Moors, oriental to the finger tips, in spite of their occidental garb, sit at the doors of Spanish-American hovels and chatter in Arabic, quite as if they were in Fez or Algiers. Now and then a feud, started at home before they emigrated, bursts out in the Arabic purlieus of some Venezuelan city, and then newspaper readers running over the police news see a wonderful collection of names, Abu this and Mohammed that, all run in for disturbing the peace.

BACK LIKE A BOARD? IT'S YOUR KIDNEYS

There's no use suffering from the awful agony of lame back. Don't wait till it "passes off." It only comes back. Find the cause and stop it. Diseased conditions of kidneys are usually indicated by stiff lame backs and other wrenching pains, which are nature's signals for help!

Here's the remedy. When you feel the first twinges of pain or experience any of these symptoms, get busy at once. Go to your druggist and get a box of the pure, original GOLD MEDAL Haarlem Oil Capsules, imported fresh every month from the laboratories in Haarlem, Holland. Pleasant and easy to take, they instantly attack the poisonous germs clogging your system and bring quick relief.

For over two hundred years they have been helping the sick. Why not try them? Sold everywhere by reliable druggists in sealed packages. Three sizes. Money back if they do not help you. Ask for "GOLD MEDAL" and be sure the name "GOLD MEDAL" is on the box.-Adv.

Trade is civilization.

The Result.

"Who are generally the winners at a tea fight?" "There aren't any. It is always a drawn battle."

Brilliant falsehoods dazzle more eyes than gems of truth.

MILLIONS
Suffer from
Acid-Stomach

Millions of people suffer year after year from ailments affecting practically every part of the body, never dreaming that their ill health can be traced directly to acid-stomach. Here is the reason: poor digestion means poor nourishment of the different organs and tissues of the body. The blood is impoverished—becomes weak, thin, sluggish. Ailments of many kinds spring from such conditions. Biliousness, rheumatism, lumbago, sciatica, general weakness, loss of power and energy, headache, insomnia, nervousness, mental depression—even more serious ailments such as catarrh and cancer of the stomach, intestinal ulcers, cirrhosis of the liver, heart trouble—all of these can often be traced directly to acid-stomach.

Keep a sharp lookout for the first symptoms of acid-stomach—indigestion, heartburn, belching, food repeating, that awful painful bloat after eating, and sour, gassy stomach. EATONIC, the wonderful modern remedy for acid-stomach, is guaranteed to bring quick relief from these stomach miseries. Thousands say they never dreamed that anything could bring such speedy relief—and make them feel so much better in every way. Try EATONIC and you, too, will be just as enthusiastic in its praise. Make your life worth living—no aches or pains—no blues or melancholy—no more of that tired, listless feeling. Be well and strong. Get back your physical and mental punch; your vim, vigor and vitality. You will always be weak and ailing as long as you have acid-stomach. So get rid of it now. Take EATONIC Tablets—they taste good—you eat them like a bit of candy. Your druggist has EATONIC—50 cents for a big box. Get a box from him today and if you are not satisfied he will refund your money.

All Depends.

He—I love the smell of powder.

She—So do I. Don't you think violet scent is the best?

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Its Sort.

"Maude has a clever way of refusing her admirers."

"Yes, regular slight of hand."

Sometimes a man misleads people by being honest with them.

The Wonders of America

By T. T. MAXEY

MAMMOTH CAVE, KENTUCKY.

MAMMOTH CAVE, the largest of a number of caves in Edmondson county, Kentucky, is said to be the largest cave known. It extends for almost a mile below the surface of the earth and contains about 100 miles of passage ways. Here are displayed perhaps the greatest and grandest examples in the world of the wonderful work of water in underground sculpturing.

Its discovery was another case of the hunter and the bear—date about 1800. The bear, wounded, crawled into the cave and escaped. The hunter followed and discovered the cave.

A visit to this cave is certainly a unique and wonderful experience. Nowhere else can it be duplicated. The interior is a maze of domes, pits, halls, chambers, pillars, temples, cascades, caverns, crevasses, stalactites and stalagmites, carved stone and other characteristic and peculiar phenomena and fairylike forms fashionable in cave architecture. There are lakes and rivers in it—one can boatride on the Echo river for half a mile. The lofty limestone roof, 60 feet high in places, and the battlemented shores reflect and magnify every sound.

The Giant's Coffin is the largest rock in the cave. It is 18 feet thick, 43 feet long and weighs 2,000 tons. Mammoth Dome, the largest and most impressive of many, is 280 feet high. Many varieties of animal life are found, including eyeless fish and blind crawfish. The air is good and the temperature even—about 54 degrees. There are several routes through the cave, the longest requiring a full day.

YELLOWSTONE NATIONAL PARK.

YELLOWSTONE, our oldest and largest national park, is considerably larger than the state of Delaware. Its altitude ranges from 6,000 to 11,000 feet above sea level. It contains such a large collection of weird and freak natural phenomena that the visitor gains the impression the Great Creator of all things must have roamed over the world, collecting all the odd things he saw, dumping them here in one great disordered heap.

There are more geysers than in all the rest of the world put together. They range from tiny openings, spouting water but a few feet, at intervals of a few minutes, to the great giant, larger than a well, projecting a column of water 250 to 300 feet high, for a period of several minutes at intervals of several days. There are numerous waterfalls, the great fall of the Yellowstone river in the gorgeously colored, 20-mile-long Grand canyon, being 308 feet high. There are many hot springs and small lakes, also the largest lake—Yellowstone—at its height in North America. There are several paint pots—great cauldrons of blubbering, hissing mud; many steam vents and boiling pools, a natural bridge, a roaring mountain, a mountain of volcanic glass, petrified trees and wedded trees.

At Norris basin is said to be the thinnest known portion of the earth's crust. Standing there, the visitor needs no assurance that his satanic majesty resides near by.

Yellowstone, known far and wide for its wild flowers, is also the largest wild game preserve in the world.

THE CROOKEDEST RAILROAD IN THE WORLD.

THE Mount Tamalpais and Muir Woods railway runs from Mill Valley, California, to the top of Mount Tamalpais—the guardian of our famous Golden Gate, the entrance to San Francisco bay. This miniature railway is but 20 miles long. The longest piece of straight track is 413 feet. It contains 281 curves. In one place the track parallels itself five times in a little more than 300 feet—forming an almost perfect double bow-knot. So crooked is this line that if all the curves were continuous, they would make 42 complete circles. It is one of the most wonderful pieces of engineering on the American continent.

The curious looking, oil-burning locomotive squirms its way tail first, pushing the train up the tortuous track, on a grade averaging six feet to the hundred, to the summit, 2,592 feet above the valley below.

The reason for it all is, of course, the view from the top of this peak which stands on the very edge of the U. S. A. Here, the eye, in one far-reaching sweep, commands a panorama of mountains, forest, bay, island, city and sea, lying between the Sierra mountains and the Pacific ocean which, 'tis said, is not surpassed from the summit of any other mountain peak in the world.

Worth mentioning in passing, too, is the fact that the government recording station here, shows more sunshine per day than any other recording station in this country.

The return trip is made by gravity—the train coasting all the way down.

THE HIGHEST HIGHWAY IN THE WORLD.

PIKE'S PEAK is, without question, the most-talked-of, most-written-about and consequently most-famous mountain in America. Fittingly indeed has it fallen heir to the name "Monument of the Continent," for it has played an important part in the history and romance of our fascinating and wonderful West. Now its importance as a landmark, situated on the dividing line between the great plains on the east and the mountain kingdom on the west, has been further increased, because of the ability of the public to ascend it comfortably and quickly and enjoy the panoramic view of five or six states which is visible from its snow-clad summit, 14,109 feet high.

The most marvelous highway building achievement of the age is the construction of an automobile highway from Colorado Springs and Manitou to the summit of this peak. The fearless thought that conceived and the daring which executed the work of building this, the highest highway in the world, absolutely stun the average individual. It is about 16 miles long, from 20 to 50 feet wide, smooth as a boulevard, and has a maximum grade of 10½ per cent.

While this serpentine road turns and twists and winds and zigzags up, to an elevation seldom reached in this world under any circumstances, the visitor is treated to indescribable views of illimitable space and into immeasurable depths and receives a series of new thrills and sensations. Looking up, one may see cars moving in opposite directions on different levels of this road, yet both are going the same way—up.

THE GALVESTON SEA WALL.

GALVESTON has the finest harbor on the gulf coast and ranks high as a city of delightful homes. Although not a resort, the semitropical climate attracts thousands of tourists annually to her long, gradually sloping beach.

To prevent a recurrence of the terrible flood of 1900, the sea wall—one of the sights of the country—was constructed along the gulf side of the city. This great wall is 22,403 feet long, 17 feet high, 16 feet wide at the bottom and five feet wide on top. It is built of concrete and granite and rests on a foundation of piling. These piles are 40 feet long, not less than 12 inches in diameter at the small end, four rows wide, set four feet apart. The top of the wall is used for a walk.

To prevent water from the gulf flowing behind the wall and flooding the city during severe storms, the grade of a large portion of the city was raised from 2 to 17 feet. This necessitated the raising of about 2,500 buildings and the readjustment of streets, sidewalks, street car tracks, electric lights, water and gas pipes to the new level.

The filling-in material was taken from the bay. The dredges, after pumping their holds full, steamed up a canal behind the wall and discharged their load through pipe lines leading down the various streets. When the work was completed the canal was filled. The magnitude of this undertaking is unparalleled in America.

ESTES-ROCKY MOUNTAIN NATIONAL PARK.

MANY years ago three Englishmen hunted big game in the Rocky mountains. They had hunted in Asia, Africa and South America, but as they stood on the continental divide in north-central Colorado and looked down into Estes park it seemed to them a very paradise on earth. One of Colorado's most satisfying outing places ever since that time Uncle Sam, in 1915, proclaimed part of Estes and the territory immediately to the west a national park.

Only 70 miles from Denver, it is the most accessible to the largest number of people of any of our great national playspots. Here, at an average elevation of 7,500 feet above sea level, is a pine-scented, snow-capped pleasureland—a perfectly delightful refuge of peaceful grandeur, where one may be out every day from May to October in clear, bracing air, beneath a bright but scorchless sun and enjoy every night the cool, refreshing sleep that only the mountains can induce.

Long's Peak stands sentinel over the park, in which are lakes on which float ice cakes in August; masses of snow (glaciers) a mile long and hundreds of feet thick, supposed to be older than the pyramids of Egypt, always exposed to the sun, far away from their starting point, yet slower than a snail; moraines—great ridges formed by glaciers which moved through the park centuries ago; rock-walled canyons; magnificent forests of pine and aspen; numerous mountain-trout streams; broad valleys, carpeted with luxuriant wild flowers of many varieties, including the delicate columbine—the state flower of Colorado.

(Copyright, 1919, Western Newspaper Union)

MIRACLES DUE TO MOTHERS.

Medicine can to some extent prevent disease from attacking the child; medicine cannot perform miracles. It is a miracle if children brought up in foul and evil surroundings grow up healthy and wholesome men and women. The miracle, incidentally, is usually accomplished not by doctors but by the self-sacrifice and heroism of the mother of the children, who too often loses her own health in the process.—London Times.

Story of the Cable Car.

In 1873, on August 1, the first cable car in the world was put into operation at San Francisco. The inventor of the cable system was Andrew Hallidie. The cable cars were introduced into Chicago eight years after their appearance on the Pacific coast and in 1883 were adopted in New York, Washington and Philadelphia and afterward in London.

An Exacting Alaskan.

Wanted, a Wife—Honest and capable man wishes a wife; age not a bar; must be good cook and able to take care of home. Have several hundred dollars in the bank, a comfortable cabin and a promising claim. No phonograph need apply.—From the Valdez Miner.

Issuing an "Extra" in Bano.

The editor of the Bano Daily News (Africa) does not have to trouble over such matters as circulation or the high cost of paper. When he gets a piece of news, he smooths off some slabs of wood, writes up the story in his best editorial style, and then gives the slabs to his office boy, who runs off with them and hangs them in conspicuous places so that he who runs may read.

Searching Questions.

About what am I now employing my own soul? On every occasion I must ask myself this question, and inquire: What have I now in this part of me which they call the ruling principle? And whose soul have I now? That of a child, or of a young man, or of a feeble woman, or of a tyrant, or of a domestic animal, or of a wild beast? —Marcus Aurelius.

Japanese Gala Day.

Of all floral festivities, Japan's Feast of the Cherry Blossom is the most generally observed. Practically every town and village throughout the land has its own particular cherry tree for honoring at this great occasion, but the most famous of them all is that at Kioto. Here early in April is to be seen such a sight as can be witnessed nowhere else in all the world. There are seldom fewer than 1,000,000 persons present, who gather from all parts of the empire. Everywhere is feasting, dancing and merrymaking.—"Flaneur," in Indianapolis Star.

Best Fruits of Romance.

A speaker was taken aback during a Sunday school session. He had been commenting on the blessings of matrimony, and just to see whether or not the class was really paying attention, asked one girl what she considered to be the best fruits of romance. The girl pondered a moment and then answered: "I should say the wedding date and the bridal pair."

Ring Up the Gods.

In China many temples are provided with a bell at the entrance, and when a worshiper enters he gives the rope a pull to ring the bell in order that the gods may be notified of his coming and be at hand to attend to his prayers.

Their Class.

"What are the six best sellers at present?"

"I should say the cellars which have the best stock put away."

Biggest of All Searchlights.

The most powerful searchlight in the world is the product of an American engineer, C. A. B. Halvorson of Lynn, Mass. The ray it projects has 160,000,000 candlepower. The whole apparatus weighs only 1,000 pounds and has but 20 parts.

Waking Up.

"Then your uncle no longer lives in the past?"

"No, he said that inasmuch as he had to pay present prices for everything, he might as well catch up with the procession and get something for his money."

Insuring a Welcome.

Percival—Gosh! Isn't it raining!

Pansy—Never mind, boysie; take father's umbrella, then perhaps he won't so much mind your coming back.—London Ideas.

His Hope.

"They're investigating the high cost of living."

"Yep. All I hope is that I don't starve to death before they find the answer."

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial." —Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

His Accomplishments.

The cultured young lady from Boston who was visiting in Richmond had mentioned so often that she spoke half a dozen languages that the company was getting decidedly bored, as no one present was able to prove her powers as a linguist. Finally, she turned to a tall, lank gentleman and asked: "And how many languages do you speak, Mr. Blank?"

"Three, ma'am," drawled the Southerner: "poor English, fair Virginian, and perfect nigger."

FREE SAMPLES

The quick relief Vacher-Balm gives for Catarrh, Nervous Headache, and many pains, is so marvelous that it pays us to give away FREE Samples, where it is unknown. Write for a Free Sample and agent's prices, while this offer lasts. E. W. Vacher, Inc., New Orleans, La.—Adv.

A Trouble Glutton.

A man who had seven wives has just been sent to Sing Sing. That sort of a glutton for trouble will probably find serving a jail sentence merely a vacation.

The sneer of the jealous fool is apt to proclaim the wise man's merit.

It is almost as easy to fall in love as it is to fall out again.

DISCOURAGED

Mr. Reuter Was Almost Helpless From Kidney Trouble, But Doan's Made Him Well.

"I was in terrible shape from kidney trouble," says D. Reuter, North St., West Chicago, Ill. "I couldn't stoop because of the awful pains in my back and the steady, dull misery almost drove me frantic. I had to be helped out of bed mornings, the pains across my kidneys were so bad and nobody knows the agony I went through. I couldn't do anything and was almost helpless; it seemed I would never get well. At times everything in front of me grew dark and I couldn't see for several minutes. I perspired profusely and I was thirsty all the time. The urine passed far too often and burned like scalding water. The passages were scanty and I had no control over them.

"For two years I suffered, trying medicine after medicine without relief. I was just about discouraged and didn't think I would ever be able to work again. Hearing about *Doan's Kidney Pills* I used them and four boxes cured me. My kidneys became normal, my back got well and strong and all the other troubles disappeared."

Sworn to before me,
JAS. W. CARR,
Notary Public.

Peter Folkers has been hauling ice from the Bowman Dairy plant at Mokena to the Matteson meat markets, the past week. The haul was made early in the morning.

Large audiences have been attending the plays at the Frankfort hall. The company is to play here Tuesday night of each week for a certain number of weeks.

A large number of Frankfort people attended the home coming at Dellwood park last Wednesday. This township also donated its share toward the celebration.

Attorney Albert Krusemark joined the Masonic fraternity the past week.

Rev. and Mrs. G. Lambrecht returned Friday from their vacation spent in Moline with their daughter, Mrs. Harry Berst.

Albert Bobzin has gone to Hot Springs, Ark., for his health.

Mr. and Mrs. A. L. Kreuger of Minneapolis, Minn., are guests this week at the Leppla home.

Farmers in this section have been putting in a busy week filling silos.

Many Frankfort people attended the Peotone fair the past week. Many expect to attend the Monee fair this week.

Last Sunday the Mission festival was celebrated at the Evangelical church in Green Garden, the Rev. William Kreis of Mozena and the Rev. G. Lambrecht of Frankfort assisting in the services which were held in the afternoon. Despite the rainy weather, there was a good attendance.

Not Meant for Household Pets.

If taken young the grizzly is easy enough to handle, for at birth he weighs only from 10 to 20 ounces and is about the size of a full-grown chipmunk. Later the bears run between 350 and 600 pounds in weight, although they have been known to reach 1,500 pounds. This, of course, makes the domestication of grizzlies by apartment house dwellers difficult.

Tinley Park

HERE FROM THE WEST.

Max Wullff and family, and his son-in-law and family of Lakefield, Minn., are visiting at the George Schreiber home this week and with other Tinley Park friends. The trip was made by auto and took three days. Mr. Wullff is well known here, having been a resident here for many years. He was also a resident of Frankfort at one time. He was in the blacksmith business while living here.

Rev. A. Buddenhagen, pastor of the local Zion Lutheran church, took part in the Mission fest at the Lutheran church in Earlville, Sunday. He preached a special sermon.

The old Wm. Scheer farm between Tinley Park and Frankfort was sold last week to Mr. Rainer of Wilmington. The farm consists of 220 acres and was sold for $200.00 per acre.

Albert Boerner has purchased a Ford. He says this beats driving a horse.

George Keuch has had a new furnace installed in his residence.

Henry Hicks, who had a car stolen in Blue Island on Labor day, has not found a trace of it yet.

The harvest picnic directed at Linden Garden by George Lorenz last Saturday was largely attended and was a decided success. Mr. Lorenz is going to give an Old Settlers picnic at the Linden Garden on the 5th of October.

Mrs. Edward Vogt is on the sick list.

Henry Bechstein, who has been ill several days, is somewhat improved.

DEMONSTRATE NEW MACHINE.

The International Posthole Digging Machine Co. of Wisconsin, and officials of the Chicago Telephone Co., witnessed a demonstration of a new post hole digging machine which was tried out Tuesday afternoon along the highway near the Henry Henke farm. A telephone post hole 5 feet deep was dug in 2 minutes.

Frankfort

CONDUCT SURPRISE PARTY.

About 25 girl friends from the Joliet high school surprised the Misses Grace and Olive Kohlhagen one night last week by holding a surprise "farewell" party, this on account of the Misses Kohlhagen leaving the Joliet school and attending the Englewood high school due to the tuition tangle between this district and the Joliet high school.

TO CELEBRATE HARVEST PICNIC

The Frankfort Industrial club has everything in readiness for their annual Harvest picnic to be conducted at the Breidert park next Saturday. There will be dancing afternoon and evening, music being furnished by Joliet's original Jazz band. Prizes will be awarded on various fruit and vegetable exhibits, all exhibits to be in by 2 p. m. All business places and elevators will close at 2 p. m.

TO CELEBRATE MISSION FESTIVAL.

Next Sunday the annual Mission festival will be celebrated at the St. Peter's German Evangelical church. Three special services will feature the occasion. At the morning service commencing at 10 o'clock the Rev. Mr. Strohschein, Sr., of Green Garden will deliver the principal address. At the afternoon service commencing at 2:30 o'clock, the Rev. William Kreis of Mokena and Rev. Mr. Strohschein, pastor of the Green Garden Evangelical church will preach. At the evening service starting at 7:30 the Rev. Mr. Hoidgraff of Bloomingdale will be the speaker. A highly interesting program is assured.

Fred Warning and Son have sold ten tractors the past summer. Of this amount eight were sold around here, one being sold in Minooka and one at Plainfield.

Busy Week for Charles.

Charles was being buttoned into a clean white suit one Sunday morning after a giddy week. "Well," he mused, "this has been some exciting week. Monday we went to the zoo; Wednesday I lost a tooth; Thursday was Gladys' birthday; Friday I was sick; yesterday I had my hair cut, and now here I am rushing off to Sunday school."

Memory Must Be Cultivated.

In any system of mental development, the memory must be cultivated at the outset, and that cultivation must continue unceasingly. It is fortunate indeed that every average person has a mind capable of excellent memory. It is only necessary that the native powers should be properly employed.
